Colorful Imaging

View in color even in darkness

**Turbo HD Cameras with
ColorVu Technology**

ColorVu
Technology

HIKVISION®

www.hikvision.com

What's ColorVu

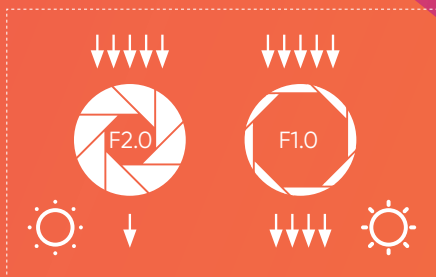

Combining great technologies for greater image quality.

Advanced Lenses

- **F1.0 Super Aperture**

Collects more light to produce brighter images.

4× more light collection than F2.0

* In extremely low-light environments, the camera is coupled with supplemental lighting to ensure color images.

Powerful Sensors

- **High-sensitivity Sensor**

Vastly improves the utilization of available light.

Smart structure

High sensitivity

Active Alignment Technology

An **Industry-leading Manufacturing Technology** ensures **reliable quality** throughout the high-volume production of ultra-HD ColorVu products.

- **Accurate Focus Adjustment**

Enables accuracy within 4 pixels, even smaller than 1/30th the diameter of a strain of hair

- **Specially-Designed for Ultra-HD Cameras**

5 MP, 3K, 4K, and more

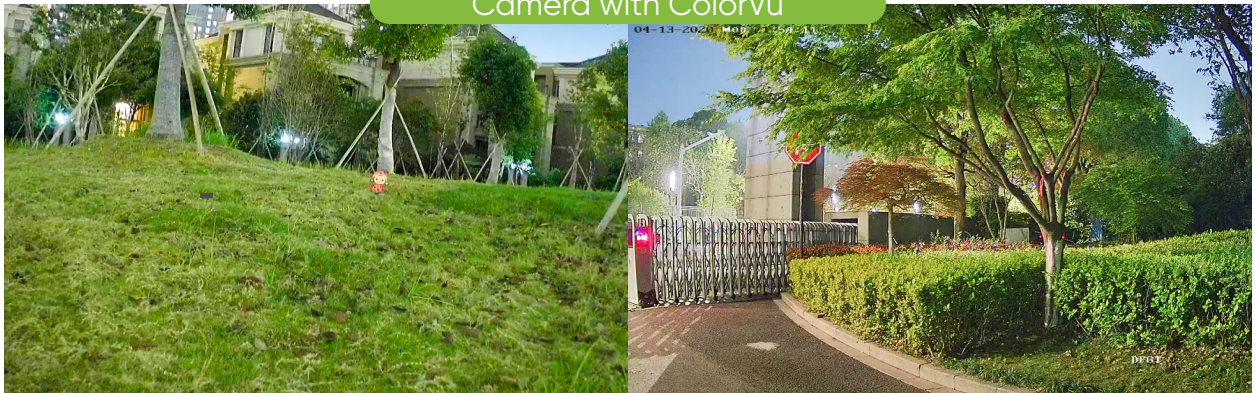

With ColorVu, You'll Enjoy

True Color Information

Accurate color rendering
Excellent performance in low-light environments

Camera with ColorVu

Other color night vision camera

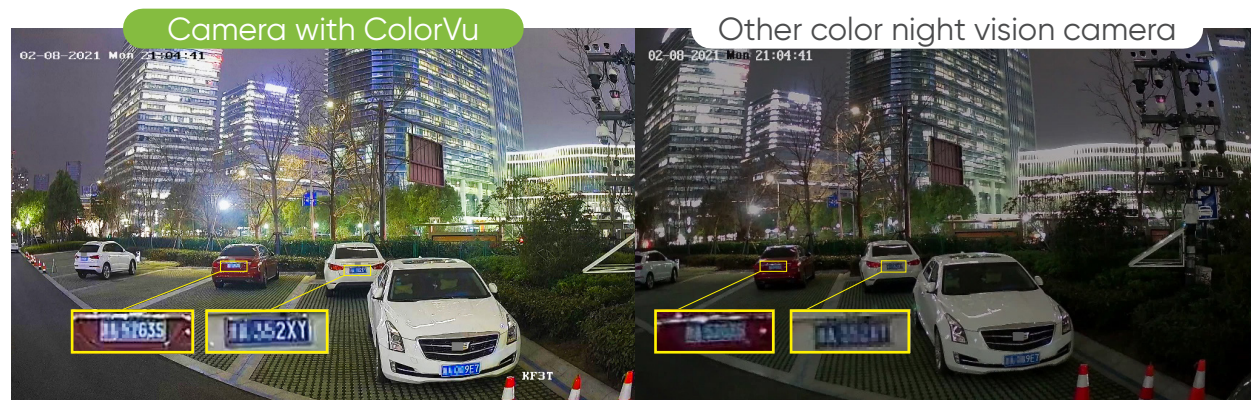

*Images were shot using ColorVu-equipped cameras with the supplemental lighting off.

Ultra Clarity with More Details

Clearly captures important information

Richer details compared to imaging from other color night vision camera

A Better Visual Experience

Balanced brightness

F1.0 super aperture and advanced sensor guarantee realistic rendering

The plate numbers are clearly visible and the colors of cars are brilliant.

The camera with ColorVu gives you clean and smooth image.

*Images were shot using ColorVu-equipped cameras with the supplemental lighting off.

Available Products

Choose from our wide range of products to enhance your security, your business operations, and more.

Turbo HD Cameras with ColorVu technology
